

Message from the Chairman of the Group

Bismillahir Rahmanir Rahim.

It gives me immense pleasure to introduce our group "AA Holding Ltd." to you which is the largest producer of textile yarn in Bangladesh. Back in the year 1989, we started with Kader Synthetic Fibres Ltd, a role model industry for producing 100% Polyester Filament Yarn from PET chips, First of it's kind in Bangladesh. This was a Turn-key project with world renowned "TORAY Engineering Ltd., Japan. Prestigious financial institutions like Asian Development Bank (ADB), Nederlandse Financiering Maatschappij voor Ontwikkelingslandenn.v. (FMO), Asian Finance & Investment Corporation (AFIC), Saudi Bangladesh Industrial Development Company Ltd. (SABINCO) participated by way of equity investment as well as extending loan facility.

After the successful implementation and operation of the first project, we stepped into our next projects in phases and in different locations in Gazipur District, Bangladesh. Our all projects were in spinning sector with the mission of becoming "number one" in the field. At present we have nine textile spinning mills, eight of which are 100% Cotton & Blended yarn manufacturing projects while one project is producing 100% Polyester Filament Yarn. These mills ensure the consistent and timely supply of high quality 100% Cotton yarn as well as Blended yarn to the export oriented knit & woven industries for manufacturing Fabrics, Readymade Garments & Textiles items. Persistent adherence to high-quality standards and innovation has been the key to success. Sincerity, hard working and integrity was the key for success and we feel that our mission to be "number one" in the spinning sector of Bangladesh has successfully been implemented. Now we have a daily production facility of 570 MT of ring spun yarn, 300 MT of rotor yarn and 200 MT of 100% Polyester Filament Yarn. More than 25,000 persons have been employed directly in these projects. Yearly turnover of the group is around USD 700.00 million. We are proud to say that we have prestigious certification like Oeko-Tex, OCS, GOTS, GRS, RCS, BCI & CMIA for producing quality yarn. We are also proud to say that already MSA Spinning Ltd., one of our project, is **H&M, INDITEX & PRIMARK** approved company while approval for other projects are on the way.

I hope with the blessing of Almighty, prudent guidance by policy makers & the top management and relentless hard working, sincerity & integrity of workers, staff & all other employees will bring further success.

M Sahabuddin Ahmed

OVERVIEW ON THE GROUP

The companies are renowned in the textile industry of Bangladesh for a longstanding commitment to integrity and quality. Under the dynamic leadership of Mr. M Sahabuddin Ahmed, the Chairman of the Group & Managing Directors of all companies, the companies are well known for high yarn quality, timely delivery and fulfillment of the commitment towards its buyers who are mainly 100% export-oriented knit/woven fabrics manufacturers and Ready Made Garments units. The total daily production capacity of all projects of the group is 570 MT of Ring spun yarn, 300 MT of Rotor yarn and 150 MT of Draw Texturized Yarn (DTY) & 50 MT of Fully Drawn Yarn (FDY). The expected annual turnover of the company and its associate companies is more than USD 1.00 billion. Approximately 25,000 employees are working in different production units of these companies and an experienced management team of expatriates are leading the work force under the guidance of Mr. Ahmed. Alongside Mr. Ahmed, his wife, sons & daughters with and a group of energetic & enthusiastic employees having different professional backgrounds and experiences are all working in the Corporate Office situated at Level 3 & 4, 47 Motiheel Commercial Area, Dhaka-1000, Bangladesh.

HISTORY OF THE PROGRESS:

- 1989 - Kader Synthetic Fibres Ltd.
- 1995 - MSA Spinning Ltd.
- 2002 - AA Synthetic Fibres Ltd.
- 2006 - AA Yarn Mills Ltd.
- 2010 - AA Coarse Spun Ltd.
- 2014 - MSA Textiles Ltd.
- 2017 - AA Knitspin Ltd.
- 2021 - AA Ringspin Ltd.
- 2021 - AA Rotor Spinning Mills Ltd.

A brief on the companies of the Group

1. **MSA Spinning Ltd. :** 100% export oriented spinning mill and was incorporated in August 1995 as joint venture with AOI Shoji Co. Ltd, Japan under the leadership of Mr. M Sahabuddin Ahmed and his family members. The factory is located at Kaliakoir, Gazipur. The project is equipped with 1,15,000 spindles with all back process machinery and has a daily production capacity of 70 MT of cotton / blended yarn. The products include Carded Yarn & Combed Yarn (BCI, PSCP Organic, CMIA), Ring Fancy / Slub Yarn, Viscose, Modal) and the count range is from 10 Ne to 60 Ne. The company achieved Oeko-Tex, OCS, GOTS, GRS, RCS, BCI & CMIA Certificates for producing quality yarn. MSA Spinning is also H&M, Inditex & Primark approved company.

2. **MSA Textiles Ltd.:** 100% export oriented spinning mill situated at Shafipiur, Kaliakoir, Gazipur. The project is equipped with 1,66,000 spindles with all back process machinery and has a daily production capacity of 110 MT of cotton / blended yarn.
3. **AA Yarn Mills Ltd.:** 100% export oriented spinning mill at Nagar Howla, Sreepur, Gazipur. The project is equipped with 1,90,000 spindles, 1800 rotor with all back process machinery and has a daily production capacity of 100 MT of PC/CVC, 50 MT of Melange / Black Polyester and 15 MT of OE PC/CVC.
4. **AA Coarse Spun Ltd.:** 100% export oriented spinning mill at Nagar Howla, Sreepur, Gazipur. The project is equipped with 40,000 spindles with all back process machinery and has a daily production capacity of 30 MT of cotton / blended yarn.
5. **AA Knitspin Ltd.:** 100% export oriented spinning mill at Nagar Howla, Sreepur, Gazipur. The project is equipped with 2,54,000 spindles, 21,000 rotor with all back process machinery and has a daily production capacity of 160 MT of Cotton/blended yarn and 200 MT of OE Cotton yarn.
6. **Kader Synthetic Fibres Ltd.:** 100% export oriented spinning mill at BSCIC Industrial Estate, Konabari, Gazipur. The project is equipped with 75,000 spindles with all back process machinery and has a daily production capacity of 50 MT of cotton / blended yarn.

7. **AA Synthetic Fibres Ltd.:** 100% Polyester Filament Yarn (PFY) project at Konabari, Gazipur. The project has a daily production capacity of 150 MT of Draw Texturized Yarn (DTY) and 50 MT of Fully Drawn Yarn (FDY) of different denier.

8. **AA Ringspin Ltd.:** 100% export oriented spinning mill at Nagar Howla, Sreepur, Gazipur. The project is equipped with 4100 rotor with all back process machinery and has a daily production capacity of 40 MT of OE cotton yarn. The project has started production from January 2022.

9. **AA Rotor Spinning Mills Ltd. :** 100% export oriented spinning mill at Nagar Howla, Sreepur, Gazipur. The project is equipped with 4700 rotor with all back process machinery and has a daily production capacity of 45 MT of OE cotton yarn. The project is expected to start production from March 2022.

SUMMARY OF GROUP PRODUCTION FACILITY

Daily Production capacity of the Group	Ring spun (100% Cotton / Blended Yarn) OE Yarn	570 MT 300 MT
	Draw Texturized Yarn (DTY) Fully Drawn Yarn (FDY)	150 MT 50 MT

PRODUCT RANGE

Ring Line

100% Cotton Yarn (Combed/Carded)	(Ne. 10 to Ne. 60)
S and Z Twist Yarn	(Ne. 20 to Ne. 60)
Compact Yarn	(Ne. 20 to Ne. 60)
Pima Yarn	(Ne. 20 to Ne. 60)
Slub Yarn	(Ne. 10 to Ne. 40)
Organic Yarn	(Ne. 10 to Ne. 80)
Core Yarn	(Ne.10 to Ne. 40)
Contamination Free Yarn	(Ne. 10 to Ne. 60)
Multi Count/Multi twist	(Ne. 20 to Ne. 40)
Melange (10/15 Percent)	(Ne. 10 to Ne. 60)
Modal, Modal/Cotton	(Ne. 10 to Ne. 60)
Viscose, Viscose/Cotton	(Ne. 10 to Ne. 60)

Rotor Line

Auto Coro	(Ne. 06 to Ne. 22)
Viscose, Viscose/Cotton	(Ne. 20 to Ne. 40)
Open End	(Ne. 07 to Ne. 12)

We have the facility to produce different counts of yarn as per customers' demand.

Plant, Machinery, Equipments & Accessories:

The plant & machinery, equipments and accessories installed are of world class and are as under:

BLOW ROOM	TRURZSCHLER	GERMANY
CARD	RIETER	GERMANY
DRAW FRAMES	RIETER	GERMANY
LAP FORMER	RIETER	GERMANY
COMBER	RIETER	GERMANY
SIMPLEX	TOYODA / RIETER	JAPAN / GERMANY
RING FRAMES	TOYODA / RIETER	JAPAN / GERMANY
AUTO CONER	MURATEC / SAVIO	JAPAN / ITALY
RECYLING PLANT	LAROCHE	JAPAN / GERMANY
HUMIDIFICATION PLANT	LUWA / BEST AIR	SWITZERLAND / THAILAND
QUALITY EQPT	Uster Technologies AG	

MANUFACTURER & EXPORTER
